

Toyota Electric Counterbalanced Trucks

The Toyota Traigo Range

Toyota Traigo 24

24-VOLT 3-WHEEL TRUCK

Compact design ideal for use in
space-restricted areas

1.0 – 1.5 TONNES LOAD CAPACITIES
TRAVEL SPEED UP TO 12.5 KM/H
BATTERY CAPACITY UP TO 1000 AH

P. 4-7

Toyota Traigo 48

48-VOLT 3 & 4-WHEEL TRUCK

Powerful all-round trucks for light
to more intense use

1.5 – 2.0 TONNES LOAD CAPACITIES
TRAVEL SPEED UP TO 20 KM/H
BATTERY CAPACITY UP TO 750 AH

P. 8-15

Toyota Traigo 80

80-VOLT 4-WHEEL TRUCK

A tough design to handle heavy loads or multiple pallets safely and quickly

2.0 – 5.0 TONNES LOAD CAPACITIES
TRAVEL SPEED UP TO 20 KM/H
BATTERY CAPACITY UP TO 775 AH

P. 16-19

Toyota Traigo HT

80-VOLT 4-WHEEL TRUCK

Class-leading strong, high performance trucks – perfect for heavy-duty applications

6.0 – 8.5 TONNES LOAD CAPACITIES
TRAVEL SPEED UP TO 16 KM/H
BATTERY CAPACITY UP TO 1250 AH

P. 20-23

TOYOTA

TRAIGO 24

Toyota Traigo 24 trucks are extremely compact, and are designed for easy operation in the tightest spaces, especially the 1.0 tonne model. Compact yet powerful, these driver-friendly trucks are at home in factories, warehouses and shops – where their size and flexibility make them ideally suited to a wide variety of materials handling applications.

SPECIFICATIONS

Load capacity: 1.0, 1.25, 1.5 t @ 500 mm load centre

Maximum lift height: 6.5 m

Maximum travel speed: 12.5 km/h

Maximum battery capacity: 1000 Ah

Options available: **L_Site**  

SAS

The clear-view mast gives operators an excellent view to the load and working environment

Low step-in height makes it easy for any driver to access the truck

Mini-levers in the armrest offer smooth, fingertip control of lift, lower, tilt and side-shift functions

Standard low lift-out battery extraction. Built-in rollerbed for fast changes optional

● standard ° option ✎ Available as part of Plus Package

Toyota SAS

The unique System of Active Stability (SAS) is the world's first active system for controlling forklift stability. By protecting the operator and load when driving, turning and lifting, SAS provides advanced technology increasing safety in the workplace and improving productivity. It includes: SAS Active Mast Tilt Angle Control, SAS Active Mast Tilt Speed Control, SAS Fork Levelling, SAS Active Steering Synchronizer, SAS Swing Lock Cylinder.

Visibility

Designed for optimal visibility, Toyota Traigo 24 masts and overhead guards give operators an excellent view of their work environment for safe, confident driving and load handling.

Choice of hydraulic controls

Toyota Traigo 24 offers three types of load-handling controls: standard driver side levers, and optional electronic mini-levers or multifunction levers integrated into an ergonomic armrest.

TPS-based reliability

Like all Toyota trucks, Toyota Traigo 24 trucks are built according to the Toyota Production System, assuring the highest levels of quality, durability and reliability.

TOYOTA

TRAIGO 48

Manoeuvrability is key to the design of the Traigo 48, allowing easy use in the tightest situations, for maximum productivity. The 3-wheel chassis is particularly agile, with a very competitive aisle width dimension. This means that Traigo 48 is as effective working inside within pallet racking as it is working outside in the yard or in a loading bay.

SPECIFICATIONS

Load capacity: 1.5, 1.6, 1.8, 2.0 t @ 500 mm load centre

Maximum lift height: 7.5 m

Maximum travel speed: 20 km/h

Maximum battery capacity: 750 Ah

Options available: | **Site** **LI-ION**  

SAS

Different pedal layouts to suit driver preference
(Double pedal layout option shown)

Rear-assist grip enhances reverse travel comfort and productivity by reducing operator back strain. Optional swivel seat aids comfort reversing and getting in and out

Battery side extraction with fork pockets (shown) or built-in rollerbed

Powerful yet energy efficient LED working lights increase visibility and allow work to continue in dark or unlit areas

Toyota SAS

The unique System of Active Stability (SAS) is the world's first active system for controlling forklift stability. By protecting the operator and load when driving, turning and lifting, SAS provides advanced technology increasing safety in the workplace and improving productivity. It includes: SAS Active Mast Tilt Angle Control, SAS Active Mast Tilt Speed Control, SAS Fork Levelling, SAS Active Steering Synchronizer, SAS Swing Lock Cylinder.

Easy driver interface

The multifunction display, which is easy to see and reach, gives key information at a glance. It also allows for parameter setting to suit driver or application needs, as well as providing fault diagnosis. The driver has the benefit of a fully adjustable Operator Restraint System (ORS) with side-wings and lumbar support, along with an adjustable steering column. The steering column itself is very slim, for maximum legroom.

Class leading in energy efficiency

Delivering class leading productivity through increased performance with less energy consumption.

Traigo 48 models are highly energy efficient, particularly in combination with the Li-ion battery option for intensive operations.

Li-ion battery technology provides exceptional battery life and the option for fast, opportunity charging at any time, revolutionising battery management and eliminating the need for battery change in multi-shift applications.

TPS-based reliability

Like all Toyota trucks, Toyota Traigo 48 trucks are built according to the Toyota Production System, assuring the highest levels of quality, durability and reliability.

TOYOTA

TRAIGO 48

Versatile, high performance and powerful trucks, with travel speed up to 20km/h, high acceleration and lift/lower speeds. The 4-wheel design gives high-level stability and is ideal for work on uneven surfaces. Suitable for indoor and outdoor work.

SPECIFICATIONS

Load capacity: 1.6, 1.8, 2.0 t @ 500 mm load centre

Maximum lift height: 7.5 m

Maximum travel speed: 20 km/h

Maximum battery capacity: 750 Ah

Options available: | **Site LI-ION**  

SAS

Fully adjustable Operator Restraint System (ORS) with side-wings and lumbar support. Now with a longer belt latch that is quicker and easier to locate for the operator, increasing safety in the workplace

Multifunction display gives key information at a glance, as well as allowing the parameter settings to be adjusted to suit the needs of the application

Battery mounted on optional rollerbed for easy extraction. Alternatively, fork pockets allow another forklift to remove the battery

Visibility FV mast provides a clear view at all angles

Toyota SAS

The unique System of Active Stability (SAS) is the world's first active system for controlling forklift stability. By protecting the operator and load when driving, turning and lifting, SAS provides advanced technology increasing safety in the workplace and improving productivity. It includes: SAS Active Mast Tilt Angle Control, SAS Active Mast Tilt Speed Control, SAS Fork Levelling, SAS Active Steering Synchronizer, SAS Swing Lock Cylinder.

Easy driver interface

The multifunction display, which is easy to see and reach, gives key information at a glance. It also allows for parameter setting to suit driver or application needs, as well as providing fault diagnosis. The driver has the benefit of a fully adjustable Operator Restraint System (ORS) with side-wings and lumbar support, along with an adjustable steering column. The steering column itself is very slim, for maximum legroom.

Exceptional energy efficiency

The Traigo 80 sets the industry benchmark for energy efficiency which, combined with a choice of high capacity batteries, means that long working shifts can be delivered without the need for battery change.

Wet disc brakes

The Traigo 80's braking system is regenerative, and the wet disc brakes are oil-immersed and virtually maintenance-free.

TPS-based reliability

Like all Toyota trucks, Toyota Traigo 80 trucks are built according to the Toyota Production System, assuring the highest levels of quality, durability and reliability.

TOYOTA

TRAIGO HT

Toyota Traigo HT is the class-leading high-performance and high-capacity truck for heavy-duty work, offering a quiet, efficient and powerful electric alternative to high capacity IC trucks. Its tough design is suited to multi-load handling and large attachments. Typical applications include manufacturing, construction materials, and the paper and beverage industries.

SPECIFICATIONS

Load capacity: 6.0, 7.0, 8.5 t @ 600 mm load centre

Maximum lift height: 6.5 m

Maximum travel speed: 16 km/h

Maximum battery capacity: 1250 Ah

Options available: | **Site** 

SAS

Enclosed cabins are available to suit different applications

The low and wide steps and large driver assist grip ensure fatigue is minimised in applications that require repeatedly getting in and out.

Integrated fork positioner

Choice of hydraulic controls between standard minilevers and optional multifunction levers (pictured)

Toyota SAS

The unique System of Active Stability (SAS) is the world's first active system for controlling forklift stability. By protecting the operator and load when driving, turning and lifting, SAS provides advanced technology increasing safety in the workplace and improving productivity. It includes: SAS Active Mast Tilt Angle Control, SAS Active Mast Tilt Speed Control, SAS Fork Levelling, SAS Active Steering Synchronizer, SAS Swing Lock Cylinder.

Unique chassis design

The design of the truck is based on two batteries - with one under the seat and the other in the counterweight instead of one larger unit, allowing the truck to have a compact chassis with up to 8.5 tonne capacity. This also allows the driver's compartment to be kept spacious resulting in high manoeuvrability and comfort.

TPS-based reliability

Like all Toyota trucks, Toyota Traigo HT trucks are built according to the Toyota Production System, assuring the highest levels of quality, durability and reliability.

Toyota Material Handling in Europe

Total coverage

The Toyota Material Handling network extends to over 30 countries in Europe with more than 4500 mobile technicians.

Always local – with global support

Wherever you are located in Europe, we are always local, due to our extensive coverage, but with the stability and back-up of a worldwide organisation.

Made in Europe

Over 90% of trucks we sell are built in our own European factories, in Sweden, France and Italy – all to TPS quality standards. We employ over 3000 production staff in Europe and work with over 300 European suppliers.

Approximately 15% of our European production is exported to other parts of the world.
